Third Party Respondents

SIXTH AFFIDAVIT OF ANTHONY J. MARTIN

I, Anthony J. Martin, having a professional residence in the City of Toronto, in the Province of Ontario, Canada, SOLEMNLY AFFIRM THAT:

1. I am an investigator in the Corporate Security department of BCE Inc. ("BCE"), the parent of the Plaintiff Bell Media Inc. ("Bell Media").

- 2. As an investigator, I am a member of a team in BCE's Corporate Security department that is specifically responsible for combating television content piracy. I joined BCE's anti-piracy team on March 13, 2017.
- 3. My experience and credentials in investigating instances of television content piracy are set out in the first affidavit I have sworn in this proceeding, dated July 15, 2019.
- 4. My first affidavit was filed on July 18, 2019, in the context of motions by the Plaintiffs for an interim and interlocutory injunction against the Defendants, which I understand were respectively presented before Mr. Justice LeBlanc of the Federal Court on July 25, 2019, and Madame Justice Kane of the Federal Court on August 7, 2019.
- 5. My second affidavit in this proceeding, dated July 29, 2019, was sworn in the context of a motion by the Plaintiffs for an interlocutory injunction against the Third Party Respondents, a group of Internet service providers ("ISPs") who provide residential Internet services to the majority of Canadian Internet users. I understand that this motion was granted by Order of Mr. Justice Gleeson dated November 15, 2019 (the "Order").
- 6. I have also signed a third, a fourth and a fifth affidavit in this proceeding, respectively dated September 3, 2019, December 3, 2019 and March 6, 2020.
- 7. I have personal knowledge of all the facts stated in this affidavit, unless indicated otherwise.
- 8. To avoid confusion, the exhibits to the present affidavit are numbered sequentially starting from the last exhibit of my fifth affidavit (Exhibit AM-77).

I. CONTEXT: THE GOLDTV SERVICES AND THE ORDER

A. The GoldTV Services

9. The present affidavit pertains to two subscription-based Internet streaming services that distribute unauthorized live broadcasts of television stations and on-demand television and motion picture content, both operating under the name "GoldTV". As of the issuance of the Order, one of these services operated from the domains goldtv.biz and edge.tm

(the "GoldTV.biz Service") and the other had previously operated from the domains www.goldtv.ca, www.goldtv.info and www.hostcenter.ca, which at the time of issuance of the Order were – and still appear to be – inactive or dormant (the "GoldTV.ca Service", together, the "GoldTV Services").

- 10. As described in detail in my first affidavit, the GoldTV Services provide unauthorized, immediate and unlimited access to a vast amount of live television and video-on-demand ("VOD") content through user-friendly interfaces, including television stations operated by the Plaintiffs and television content for which the copyright is owned by the Plaintiffs.
- 11. Various aspects of the GoldTV Services, including their technical aspects, their business models, their popularity, the step-by-step process by which a user can access live and VOD content, the user-friendly nature of these services, and the television content that can be accessed through these services, are described in detail at paragraphs 44 to 86 of my first affidavit.

B. The Order and its Schedule 1

- 12. I understand that pursuant to the Order, the Third Party Respondents are ordered to block or attempt to block access to a number of domains, subdomains and/or IP addresses associated with the GoldTV Services, listed at Schedule 1 to the Order.
- 13. I also understand that the Order contains a mechanism to remove domains, subdomains and IP addresses from Schedule 1 in certain circumstances, and another mechanism to supplement Schedule 1 with additional domains, subdomains and/or IP addresses that are identified as having for sole or predominant purpose to enable or facilitate access to the GoldTV Services.
- 14. I also understand that the Plaintiffs last requested to update Schedule 1 to the Order on March 11, 2020, to supplement Schedule 1 with domains, subdomains and an IP address that were identified as having for sole or predominant purpose to enable or facilitate access to the GoldTV.biz Service. A copy of Schedule 1, as the Plaintiffs last requested it to be updated ("2020-03-11 Updated Schedule 1"), is attached to my affidavit as

Exhibit AM-78. I understand that this request has yet to be examined by the Court and that no Order reflecting the 2020-03-11 Updated Schedule 1 has issued.

II. THE GOLDTV.BIZ SERVICE

A. Domains, sub-domains and IP addresses for the GoldTV.biz Service

- 15. In the course of my work at BCE, I monitor the GoldTV.biz Service and provide periodic internal updates on its underlying infrastructure, including to identify any new domain and subdomain related to the operation of this service, if applicable.
- 16. As explained in greater detail below, for each of the domains and subdomains identified, I have:
 - a) conducted various tests to confirm that they are indeed associated with the GoldTV.biz Service;
 - b) consulted their WHOIS records in order to determine if they provide any information on the identity of the operators behind the GoldTV.biz Service; and
 - c) consulted various sources in order to determine if they are associated with any purpose or service other than the operation of the GoldTV.biz Service.
- 17. I have also consulted certain sources in order to identify the IP addresses associated with the domains and subdomains identified in the course of this monitoring, as explained further below at paragraph 20.

The domains, subdomains and IP address identified in my fifth affidavit in support of the 2020-03-11 Updated Schedule 1

18. As it appears from the 2020-03-11 Updated Schedule 1 (Exhibit AM-78), and as explained in my fifth affidavit, the Plaintiffs last requested to supplement Schedule 1 with the following domains, subdomains and IP address which I identified, in the course of my monitoring described above and in my fifth affidavit, as having for sole or predominant purpose to enable or facilitate access to the GoldTV.biz Service:

- a) The domain zynx.biz, as well as its subdomain p.zynx.biz;
- b) The subdomain **global.myiptvplanet.com**;
- c) The subdomain **billing.gleeze.com**, as well as its IP address **212.129.63.96**;
- d) The domain destv.me;
- e) The subdomain tx.tankk.net; and
- f) The subdomain torx.10centv.net.
- 19. Since the date of my fifth affidavit, there have been a number of developments in the infrastructure of the GoldTV.biz Services, notably:
 - a) the subdomain **p.zynx.biz**, on the domain **zynx.biz**, no longer appears to be solely or predominantly associated with the GoldTV.biz Service. More specifically, entering the address p.zynx.biz into a web browser now automatically redirects users to the domain google.com. As such, at this time, I do not propose to supplement Schedule 1 to the Order to include the domain zynx.biz or the subdomain p.zynx.biz.
 - b) the subdomain **global.myiptvplanet.com** no longer automatically redirects to the subdomain **p.zynx.biz**, as I explained at paragraph 31 of my fifth affidavit, but instead redirects to another newly identified subdomain associated with the GoldTV.biz Service, as explained at paragraphs 25 to 27 below.
 - c) the subdomain **billing.gleeze.com** no longer appears to be active on the Internet. As such, at this time, I do not propose to supplement Schedule 1 to the Order to include this subdomain or the IP address 212.129.63.96.
 - d) the domain **destv.me** no longer automatically redirects to the subdomain **tx.tankk.net**, as I explained at paragraph 38 of my fifth affidavit, but instead redirects to another newly identified subdomain associated with the GoldTV.biz Service, as explained at paragraphs 31 to 33 below.

- e) The subdomain **tx.tankk.net** no longer appears to be active on the Internet. As such, at this time, I do not propose to supplement Schedule 1 to the order to include this subdomain.
- f) The subdomain **torx.10centv.net** no longer appears to be active on the Internet. As such, at this time, I do not propose to supplement Schedule 1 to the Order to include this subdomain.
- g) Other newly created domains and subdomains appear to enable or facilitate access to the GoldTV.biz Service, as further described below.
- 20. At this time, I do not propose to supplement Schedule 1 to the Order to include any IP address having as sole or predominant purpose to enable or facilitate access to the GoldTV.biz Service. For this reason, the present affidavit does not discuss the IP addresses associated with the domains and subdomains described below.

The firtio.club and rahez.co domains and their respective subdomains

- 21. As mentioned in my fifth affidavit, the domains billing.gleeze.com and p.zynx.biz mentioned at paragraph 18 above and listed in the 2020-03-11 Updated Schedule 1 were identified by my colleague Yves Rémillard through communications with a reseller of subscriptions to the GoldTV.biz Service, from whom he had previously purchased access to a "reseller control panel" (i.e. an interface used by operators and other resellers of the GoldTV.biz Service to manage user accounts and subscriptions).
- 22. On March 24, 2020, Mr. Rémillard informed me that this reseller had provided him with new information on the domains and subdomains associated with the GoldTV.biz Service, namely that:
 - a) the GoldTV.biz Service "portal" (i.e. a domain or subdomain that acts as a user gateway to the service) was no longer associated with the subdomain p.zynx.biz, and was now instead associated with the domain **firtio.club**, and

- b) the reseller control panel for the GoldTV.biz Service was no longer associated with the subdomain billing.gleeze.com and was now instead associated with the subdomain bill.rahez.co.
- On April 17, 2020, I successfully accessed the GoldTV.biz Service through the portal **firtio.club** using a set-top box in the same manner as described in my first affidavit. The general appearance, channel numbers and content available through the portal firtio.club was the same as for other portals associated with the GoldTV.biz Service that I had previously tested. Also, and as is the case for all other portals described in my affidavit below, the fact that I can access the portal firtio.club by using a subscription to the GoldTV.biz Service further confirms that this portal is indeed associated with the GoldTV.biz Service.
- During these tests, I used a specialized tool named Wireshark (the "Wireshark Tool"), which I have used and found to be reliable in the past in similar contexts, in order to identify the Internet address to which my set-top box was connected when I accessed the portal firtio.club. As it appears from a screen capture of the Wireshark Tool interface taken during that test, attached to my affidavit as **Exhibit AM-79**, connecting to the portal **firtio.club** connected my set-top box to the subdomain **p.rahez.co**. Additionally, entering the address firtio.club into a web browser automatically redirects users to the address p.rahez.co/stalker portal/c/.
- As also mentioned in my previous affidavits, I had purchased a separate subscription to the GoldTV.biz Service from a different reseller, who had directed me to use the subdomain **global.myiptvplanet.com**, mentioned at paragraph 18 above and listed in the 2020-03-11 Updated Schedule 1.
- 26. On April 17, 2020, I tested the subdomain **global.myiptvplanet.com** and successfully accessed the GoldTV.biz Service in the same manner as described in my first affidavit. The general appearance, channel numbers and content available through the portal global.myiptvplanet.com was the same as for other portals associated with the GoldTV.biz Service that I had previously tested. As mentioned above, the fact that I can access the

- portal global.myiptvplanet.com by using a subscription to the GoldTV.biz Service further confirms that this portal is indeed associated with the GoldTV.biz Service.
- As it appears from screen capture of the Wireshark Tool interface taken during this test, attached to my affidavit as **Exhibit AM-80**, connecting to the portal global.myiptvplanet.com in fact connected my set-top box to the above-mentioned subdomain **p.rahez.co**. Entering the address global.myiptvplanet.com into a web browser also automatically redirects users to the address p.rahez.co/stalker portal/c/.
- 28. On April 17, 2020, I successfully accessed the reseller control panel for the GoldTV.biz Service through the subdomain **bill.rahez.co**, mentioned at paragraph 22 above, as it appears from the screen captures attached to by affidavit as **Exhibit AM-81**, from which were redacted some details to maintain my investigative position.
- 29. In light of the above, the following domains and subdomains appear to be associated with the GoldTV.biz Service:
 - a) **firtio.club**: automatically redirected to the p.rahez.co portal for the GoldTV.biz Service. The domain firtio.club is only associated with the following subdomains, as it appears from the domain information for firtio.club, attached to my affidavit as **Exhibit AM-82**:
 - (i) admin.firtio.club: which appears to be a website under construction, and which could be reserved for future use. I cannot confirm whether this subdomain is associated with the GoldTV.biz Service
 - (ii) **mail.firtio.club**: which leads to a page displaying the message "Forbidden You don't have permission to access this resource". I cannot confirm whether this subdomain is associated with the GoldTV.biz Service

I am not aware of any other subdomain for the domain firtio.club, including any subdomain that would be associated with any purpose or service other than the operation of the GoldTV.biz Service.

- b) **rahez.co**, the main domain for a GoldTV.biz portal and for a reseller control panel, which is only associated with the following subdomains, as it appears from the domain information for rahez.co, attached to my affidavit as **Exhibit AM-83**.
 - (i) **p.rahez.co**: portal for the GoldTV.biz Service, as described above;
 - (ii) **bill.rahez.co**: reseller control panel for the GoldTV.biz Service, as described above;
 - (iii) **xx.rahez.co**: portal for the GoldTV.biz Service. On April 20, 2020, I successfully accessed the GoldTV.biz Service through the subdomain xx.rahez.co using a set-top box in the same manner as described in my first affidavit. The general appearance, channel numbers and content available through the portal xx.rahez.co was the same as for other portals associated with the GoldTV.biz Service that I had previously tested. As mentioned above, the fact that I can access the portal xx.rahez.co by using a subscription to the GoldTV.biz Service further confirms that this portal is indeed associated with the GoldTV.biz Service.
 - (iv) panel.rahez.co: appears at first to be a reseller control panel. However, when I attempted to access the reseller control panel for the GoldTV.biz Service through the subdomain panel.rahez.co, I was unable to log in. I cannot confirm whether this subdomain is associated with the GoldTV.biz Service.
 - (v) **app.rahez.co**: appears to be a portal for the GoldTV.biz Service. However, when I tested this portal on June 11, 2020, I was unable to access the GoldTV.biz Service. I cannot confirm whether this subdomain is associated with the GoldTV.biz Service.

I am not aware of any other subdomain for the domain rahez.co, including any subdomain that would be associated with any purpose or service other than the operation of the GoldTV.biz Service.

- c) **global.myiptvplanet.com**: which automatically redirects to the p.rahez.co portal for the GoldTV.biz Service, as described above.
- 30. I therefore propose to supplement Schedule 1 to the Order to include the following subdomains which have as their sole or predominant purpose to enable or facilitate access to the GoldTV.biz Service:
 - a) **p.rahez.co**;
 - b) bill.rahez.co;
 - c) **xx.rahez.co**; and
 - d) global.myiptvplanet.com.

The destv.me and tx.tankk.net domain and subdomain

- 31. As explained at paragraph 36 of my fifth affidavit, in the course of this monitoring mandate, I identified the domain **destv.me** as a portal for the GoldTV.biz Service.
- 32. On April 20, 2020, I successfully accessed the GoldTV.biz Service through the portal destv.me using a set-top box in the same manner as described in my first affidavit. The general appearance, channel numbers and content available through the portal destv.me was the same as for other portals associated with the GoldTV.biz Service that I had previously tested. As mentioned above, the fact that I can access the portal destv.me by using a subscription to the GoldTV.biz Service further confirms that this portal is indeed associated with the GoldTV.biz Service.
- As it appears from a screen capture of the Wireshark Tool interface taken during that test, attached to my affidavit as **Exhibit AM-84**, connecting to the portal **destv.me**, no longer connected my set-top box to the subdomain tx.tankk.net, as it previously did and as explained in my fifth affidavit, but connected my set-top box to the subdomain **xx.rahez.co**, a portal for the GoldTV.biz Service mentioned at paragraph 29.b)(iii) above. Additionally, entering the address destv.me into a web browser now automatically redirects users to the address xx.rahez.co/stalker portal/c/.

- 34. In light of the above, the following domain and subdomain appear to be associated with the GoldTV.biz Service:
 - a) **destv.me**: portal for the GoldTV.biz Service, which does not appear to be associated with any subdomain, as it appears from the domain information for destv.me, attached to my affidavit as **Exhibit AM-85**;
 - b) **xx.rahez.co:** portal for the GoldTV.biz Service, mentioned at paragraph 29.b)(iii) above.
- 35. I therefore propose to supplement Schedule 1 to the Order to include the following domain, which has as its sole or predominant purpose to enable or facilitate access to the GoldTV.biz Service
 - a) destv.me

B. WHOIS information for the domains associated with the GoldTV.biz Service

- 36. As mentioned at paragraph 16 above, I performed WHOIS searches on the domains listed above in an effort to identify the operator(s) of the GoldTV.biz Service. These WHOIS records are enclosed as the following exhibits, and my comments are as follows:
 - a) Exhibit AM-86, myiptyplanet.com: obfuscated and anonymous.
 - b) **Exhibit AM-87**, rahez.co: obfuscated and anonymous.
 - c) Exhibit AM-88, firtio.club: obfuscated and anonymous.
 - d) Exhibit AM-89, destv.me: obfuscated and anonymous.

III. THE GOLDTV.CA SERVICE

37. As of the date of the present affidavit, it does not appear that the domains, subdomains and IP addresses previously associated with the GoldTV.ca Service have been reactivated.

IV. CONCLUSION

38. For the reasons described above, I propose to supplement Schedule 1 with the domain and subdomains listed in the document attached to my affidavit as **Exhibit AM-90**.
