### **Considered:**

That through this procedure, the applicant noe. on behalf of the foreign association **Infront Sports & Media AG**, a legal entity registered in Switzerland with registration number CHE-101.159.299, applied to this Court to:

- 1) *Declare that the transmission / streaming of the audiovisual content of the direct matches of the first division of the Italian football league Serie A without the authorization of the Applicant, including but not limited to content accessible from the IP Addresses indicated in -Document C, infringe the copyright held by the same Applicant;*
- 2) *Declare that the service provided by the respondent companies is being used by third parties in order to infringe the copyrights held by the Applicant;*
- 3) *Order, in terms of Article 10 of Chapter 488 of the Laws of Malta, the respondent companies to block access to IP addresses, including but not limited to the IP Addresses indicated in the attached document and marked as Document C, through which access is granted to the audiovisual content of the direct matches of the first division of the Italian football league Serie A for the seasons 2021/2022 and 2022/2023 which is being transmitted / streamed without authorization / license of the Applicant, and therefore in breach of the copyright which it holds, and this under the modalities and subject to any provision that this Honorable The Court considers it appropriate to impose such an order as to be effective, efficient and dynamic, including to appoint technical experts who identify during the course of the said seasons other IP Addresses which may from time to time illegally transmit the audiovisual content on which the Applicant holds the copyright and may be accessed through the service of the same respondent companies so that access to the same IP Addresses is also subject to the restrictive order of this Honorable Court against the respondent companies. ;*

*With costs against the respondent companies.*

### **Further Considered:**

That the applicant noe, namely **Infront Sports & Media AG** (hereinafter referred to as "**Infront**") is making these claims as it allows it to hold,

**Rik. No. 315/2022 ISB**

with reference to the matches of the first division of the Italian football league, the international audiovisual rights (except those for the United States of America and its territories and the Caribbean) of the matches played in the first division of the Italian football league. In this sense it was exhibited with the application promoter DOK B which is a declaration of the Lega Nazionale Professionale Serie A together with the International tender for audiovisual rights for the seasons 2021/2022, 2022/2023, 2023/2024.

It is against this background that **Infront** contends that it enjoys the protection of copyright in terms of CAP 415 of the Laws of Malta, the so-called "Copyright Act" and thus it has the exclusive right to transmit, communicate and make available to the public, including the Maltese, the audiovisual content of the matches of the first division of Italian football.

**Infront** harassed the respondent companies as as *Internet Service Providers* (ISPs) they provide their electronic platform for streaming digital content from various sources to the public.

**Infront** contends that a number of IP Addresses have been identified which give online access to the audiovisual content of the games described and which is being transmitted / streamed without its due license and / or authorization, and therefore claims that the transmission / streaming of the said audiovisual content is being made illegally and in violation of its copyright. In support of its evidence, it exhibits as Doc C a report of a renowned auditing company, the company *PriceWaterhouse Coopers* (PwC) in Malta.

Illi mir-rapport msemmi, jirrizultaw mijiet ta' IP Addressess illi PwC iddiskreviet bhala "a list of all internet sites identified as a content streaming or location, gathered throughout the packet capture session" u tinkludi "date and time of packet capture", "stream channel name", "stream details ie name of sporting event or program", "stream source IP address" u "stream source URL".

**Infront** further contends that the streaming servers from which the illegal transmission takes place change their IP Addresses regularly, sometimes even during the actual transmission of a game, and such transmitted / streamed audiovisual content. illegally may be accessed in Malta through websites, mobile device apps and / or other software accessed / included / listed in set-top boxes, media players, computers and / or other electronic devices through the service provided by the respondent companies.

**Infront** therefore contends that while the respondent companies are not themselves in breach of their rights, the service provided by them is nevertheless being used to commit such an infringement. This is because through them, the clients of the respondent companies have access to the illegally transmitted audiovisual content.

The Court considers that these facts as they result from the sworn application and the documents annexed to it are in no way contradicted, rather they appear to be accepted by the respondent companies. The Court will therefore consider that the recitals set out in the application are well substantiated by facts, above all documentary, which are not contradictory.

Rik. No. 315/2022 ISB

**Further Considered:**

That in the light of the facts presented by **Infront**, it is asking that this Court provide an effective remedy so that it protects its rights, in particular and precisely by blocking access to streaming servers that are illegally transmitting audiovisual content. on which it holds the copyright.

**Infront** makes this request in terms of **Article 10 (2) of Chapter 488 of the Laws of Malta** which entitles the holder of an intellectual property right to request the Court to issue such prohibitions as it deems fit. in respect of intermediaries whose services are used by third parties to infringe the said intellectual property right in order to prohibit the continued infringement of that right.

**Further Considered:**

That **Article 10 (2) of Chapter 488 of the Laws of Malta** expressly states thus:

*10. (1) Where the Court finds that there has been an infringement of an intellectual property right, it may, on an action brought by the plaintiff, issue a prohibition against the infringer with a view to prohibiting the infringement. the continuation of that breach. Failure to comply with that prohibition would constitute contempt of court.*

*(2) The action referred to in subarticle (1) may also be made in respect of intermediaries whose services are used by third parties to infringe an intellectual property right, without prejudice to article 42 of the Act. on Copyright.*

That Article 10 contemplates a prohibition order. This is the action that **Infront** has chosen to protect its rights, even if CAP 488 of the Laws of Malta provides for other remedies, which nevertheless remain prejudiced to it as this action is strictly done and imposed on Article 10 of CAP 488 alone, even if the recitals to the agreement reached between the parties make the position of all parties in this clear and defined pending.

The Court also considers that while the ban sought by **Infront** relates to two seasons of football matches, with all this the 2021/2022 season is now definitively closed and in view of the nature of the action brought, it would be superfluous therefore for this judgment to apply to what has already been done and passed.

In this sense, the Court is making it clear that this judgment should be considered applicable for the next season, **ie the football season 2022/2023**, and further especially for the first division of Italian football. referable for the same season.

**Further Considered:**

That in the last hearing, the parties presented a joint note by which they not only informed Court that they had led to an agreement by which they had transferred the case

**Rik. No. 315/2022 ISB**

but requested the Court to give judgment with a view to enforcing the said agreement reached between the parties.

The Court notes that **ALL** parties to this dispute have acted in a straightforward, disciplined and serious manner and are aware of their obligations and rights, without undue delay, leading to an agreement that they wish this Court to adopt in the judgment so that the illicit situation described above as agreed between the parties and which lasted during the course of the 2021/2022 season does not recur in the next season, that of 2022/2023.

The Court, satisfied with all this, finds no difficulty in incorporating in its judgment what has been agreed between the parties, and therefore, the Court is ordering that the Document marked **DOK KB 1** presented with a note at the hearing of 6 June 2022, which is the agreement between the parties in this case, reached and signed on 1 June 2022, referred to as **'the agreement'**, shall, for all intents and purposes of this judgment, form part of it with the Court ordering that

- (a) this judgment must always be read and given effect in the light **of the agreement** and
- (b) such **agreement**, provided that it is in the records, is not published with the present judgment at the request of the same parties and rather shall be sealed by the Registrar and opened only in case and in the event that it is necessary if it arises. any dispute / dispute between the parties over the same **agreement** and this ends before a judicial or quasi-judicial Court / Arbitration or Tribunal.

**THEREFORE**, the Court, having considered all the above submitted and having considered all the facts arising from it, including **the agreement** reached between the parties as described above, is proceeding to decide this pending case by:

1. **WELCOMES the first request** and declares that the transmission / streaming of the audiovisual content of the direct matches of the first division of the Italian football league without the authorization of the same **Infront**, including but not limited to for the content accessible by the IP Addresses indicated in Document C with the promoting application, infringes the copyright held by the same **Infront**.
2. **WELCOMES the second claim** and states that the service provided by the respondent companies is, in the sense and context explained above, used by third parties in order to infringe the copyright held by **Infront**, without prejudice to it should not be understood that the same respondent companies are liable for the incident.
3. **WELCOMES the third request** within the meaning ordered herein and therefore orders, in terms of Article 10 of Chapter 488 of the Laws of Malta and also **of the agreement** reached between the parties on the first of June 2022 ( DOK KB1 in deeds) hereinafter referred **to as "the agreement"**, in order to:
